## 4. FIRST-AID MEASURES

### 4.1 Description of first aid measures

- After eye contact :** - If in an eye, remove in the same manner as one would when any solid object enters the eye since the product is an inert solid.
- After skin contact :** - If the skin is in contact with the heated product, immediately immerse in or flush the affected area with a large amount of cold water to dissipate heat. Cover with clean cotton sheet or gauze and get prompt medical attention.
- No attempt should be made to remove the heated product from the affected skin or to remove the contaminating clothing as the damaged flesh can easily be torn.
- After inhalation :** - Using proper respiratory protection, immediately remove the affected victim from exposure.
- Administer artificial respiration if breathing has stopped.
- Keep the affected victim at rest.
- Call for prompt medical attention
- After ingestion :** - First aid is normally not required

### 4.2 Most important symptoms and effects

#### Acute effects

None known.

#### Delayed effects

None known.

### 4.3 Indication of immediate medical attention and notes for physician

- Pay attention so that product does not flow into the sewage or public water area.

### 6.3 Methods and material for containment and cleaning up

- Sweep up the scattered product and recover into a suitable container.

### 6.4 Reference to other sections

- See also sections 8 and 13 of the Safety Data Sheet.

## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling

- Do not handle until all safety precautions have been read and understood.

### 7.2 Conditions for safe storage, including any incompatibilities

- Keep away from heat, direct sunlight and ultraviolet rays. Exposure to direct sunlight and ultraviolet rays cause the polymer to generate light-induced crosslinked gel in the product.
- Avoid wetting and abrupt temperature change when storing this material.
- Please store product at room temperature, and keep it dry. Especially, high ethylene type EP(D)M should be stored in a warm room for more than 48hours prior to use and process.
